What is a DUI

Kentucky law states that:

“Operating a motor vehicle with blood alcohol concentration (BAC) of or above 0.08, or of or above 0.02 for persons under age twenty-one, or while under the influence of alcohol or other substance which impairs driving ability .” (189A.010)

Zero Tolerance Offender is defined as a person under the age of 21 years old who is convicted of being in control of a motor vehicle while having a BAC between .02 and .08 grams of alcohol per 100 milliliters of blood, or per 210 liters of breath.

For a 1st offense DUI: Kentucky law requires an assessment and an education or treatment program.

If education is appropriate, Kentucky’s standard is twenty (20) hours of alcohol and other drug education.

If further assessment or treatment is appropriate then the amount of treatment, determined at the time of the assessment, must be completed in order for Kentucky to clear the individual’s driving record. Kentucky’s maximum period of time for a 1st offender to be in treatment is ninety (90) days.
